

"LIBERTY AND UNION, NOW AND FOREVER, ONE AND INSEPARABLE."—WILSON

NEWPORT, SATURDAY MORNING, OCTOBER 20, 1855.

BY CRANSTON & NORMAN
144 THAMES STREET.

SATURDAY MORNING OCT. 20, 1855

Dr. Frederick Douglass, will deliver an address at the State House, on Monday evening, on Kansas and Freedom. Admission free: the public are invited to attend.

From Newport.—It gives us pleasure to announce the re-appearance of the Norfolk Herald. We have that paper of Monday, in which the editor says:—"We have resumed our labor; our political aids and helps are still absent, impatiently waiting the signal to return; and until then we shall be compelled to issue our papers only three times a week."

We take the following from the Herald of Monday:—

The physicians strenuously advise that absences be in no haste to return. The warm weather last week brought out several new cases of fever—last Thursday three very bad ones—and a case of death from previous sickness. The weather on Saturday was cool, but without frost. We have had but one frost yet, and that was only seen in the upper parts of the city; though we hear there have been several in the country.

There is yet much sickness in the city, though but little of it from the epidemic—and a great deal of destitution, some of it in families accustomed to good living. Nine-tenths of the poorer classes were compelled to remain during the pestilence for want of means to flee from it, and if they were not fed by the Howard Association would absolutely starve.—The Relief Committee of Richmond, we learn, has generously sent down a load of coal for their use.

THE MORALITY OF A GOVERNOR.—We have seen a letter from the Great Salt Lake city, which says that Governor Young has seventy wives—forty resident in the city, and thirty in various portions of the territory.—*Com. Adv.*

William Martin of Michigan, convicted on two indictments of forging pension papers, has been sentenced to six years' imprisonment in the State penitentiary.

THE JAPANESE TREATY.—The Washington correspondent of the New York Times says that the Japanese interpretation of the treaty is sustained by the Administration, and of course no efforts will be made by it to compel the reception at Japan of American merchants as residents.

SPECIAL AMBASSADOR FROM RUSSIA.—The New York Herald correspondent says that a dispatch has been received by Mr. May from Mr. Seymour, our Minister at St. Petersburg, announcing the appointment of Russia of a special ambassador to the United States, who was shortly to take his departure for this country.

A SINGULAR RELIC.—We were shown on Saturday, by Col. Ogilvie, of this county a small copper tobacco-box, about two by six inches. The history of this box is interesting. When William Penn first began the settlement of Philadelphia, he gave it to an Indian chief, as a present. The box then was perfectly plain. Long afterwards, it was procured from the Indians by a white man, and then it was discovered to be rudely carved all over. One part of it represents Penn treating with the Indians, and the figures of Indians are scattered in many places. The carving has evidently been done with a sharp stone—the surface to be scratched out. It is a living illustration of the artistic skill of the aborigines. The box has been in the possession of the family of Col. Ogilvie for over one hundred years.—*Terra Haute (Ind.) Express.*

OBSCURE ACTS.—A notice from the office of the Attorney General of the United States, published in the "Union," states that the word "obscure," affixed in the current edition of the Statutes at Large to the act of May 18, 1842, entitled "An act making appropriations for the civil and diplomatic expenses of the Government for the year eighteen hundred and forty-two, is an editorial error, as the act, although annual in terms, contains provisions of permanent legislation. This error is a frequent one in the same edition of the Statutes, throughout which, for the most part, the editorial note, "obscure," in the margin, is to be disregarded, unless it be confirmed by the substance and contents of a particular act of Congress.—*National Intelligencer.*

In the Paris Crystal Palace there has been established a gallery of cheap goods, which is termed the gallery of domestic economy. Here the prices are, for a pair of pantaloons, of good cloth, finished, and substantial, seven francs; a good black frock-coat, eleven francs; a Scotch plaid vest, three francs five sous; a muslin shirt, plain, two francs nine sous, etc.

SPIRITUAL HUNTING.—Some time ago the New England Spiritualist published a communication received from a spirit on the 30th June. We suppose the fact that Dr. Kane has returned to contradict the prediction only shows the spirit was a bubble, not that the whole affair was a mere cheat. The communication was as follows:—
Dr. Kane has recently passed away from the earth life, his mortal body having been crushed by the ice, as he went after his crew, who had gone search of land. His ships have been broken to pieces and destroyed, and most, if not all his crew, are in the spirit world. The spirit also stated that he, in company with Dr. Kane, Sir John Franklin and others, was last night in the polar regions, and saw the remains of Dr. Kane upon the ice, with clothes, papers and his watch, upon which he saw his name, "Dr. Kane," he having engraved it thereon, not expecting to escape, but hoping that it might be found by some one in search of him.

BANKRUPT CITIES.—San Francisco, Cal., is burdened with a debt she cannot pay, and her treasury is empty; Philadelphia has not a dollar in her treasury and cannot pay the salaries of her school teachers; New Orleans has disposed of the use of her public wharves for three years, so as to raise money sufficient to pay the salaries of her school teachers; Chicago is in a sorry financial condition, its treasury is entirely empty, and those in the employ of the city go begging for the wages due them—a state of things which the Chicago Times attributes to Know Nothingism. The Times says:—"The great commercial metropolis of the northwest—the city of Abolitionism and Know Nothings—the greatest grain emporium in the world—is without a dollar to pay its honest debts! Its funds are gone—its orders are refused by the banks, and depreciated with individuals—its credit is comparatively worthless."

SUICIDE OF ELI F. BENJAMIN.—Mr. Eli F. Benjamin, an old and well known resident of Utica, came to his death on Sunday morning by poison administered by his own hand. He was a man of sixty five or sixty seven years of age, a book keeper by profession.

Scarcely any one who is intimately acquainted with Mr. Benjamin, will fail to understand by what impulse the old man brought to the commission of suicide.—He was, it was well known, one of those unfortunates deluded by Spiritualism. During the last year, probably no man in this city has been more deeply devoted to the subject. Certainly no one has been more fanatical. The subject has been in his thoughts continually. He has been foremost at the "circles." By spiritualism he was made to believe that he held communication with his deceased wife and daughter, with whom, in the "spirit land," he has latterly, times unnumbered, expressed a longing to be. Within less than a fortnight he has received (so he was persuaded) a message from them, inviting him to join them. He took poison that he might accept the invitation.—*Utica Observer.*

STERLING BY THE NORTH STAR.—A year or two since an ebony individual answering to the name of "Bob" (in fact no one knew whether he had any other name) was employed by a skipper to assist him in sailing a small schooner on the waters of Chesapeake Bay. Bob did not understand and could not be made to learn the compass; so the skipper never dared to trust him to manage the craft except during a very light night, when he could point out to him some headland to steer for. On one occasion, however, the captain, who had been up two nights previously, concluded he would trust the schooner to Bob and take a little rest on deck; so he pointed out the north star to his jet companion, and told him to continue steering for it until he waked up. After watching him a short time, and finding that he could keep the vessel headed right, the skipper stretched himself upon the deck and was soon asleep. Shortly afterwards a squall arose from the north and blew the craft completely away from her course. After it had cleared away somewhat Bob looked around and found the north star at his back. He sailed along an hour or two, doing the best he could and cogitating how he should get out of his difficulty; but at last he gave it up, and shoving his lumbering master into wakefulness with his feet, shouted, "Cap'n cap'n! give me another star to steer by, I've got clean by that one!"—*Californian Pioneer.*

Santa Anna's son who figured as a colonel in his father's army, mostly in Mexico, was taken prisoner a few days since while on his way in disguise to Vera Cruz, with the intention of embarking secretly from that port. The people of the village where he was arrested, determined to lynch him on the spot for some alleged crime but he was preserved from their vengeance and sent to Vera Cruz, where he awaits his trial. He is only 25 years of age, but is charged with some horrible crimes.

The procession of horses, single and double teams, saddle horses and led stallions, together with yokes of working cattle, at the opening of the Connecticut State Fair, on the 6th instant, was a mile and a quarter long.

One Week Later From Europe.

The Atlantic, Capt. West, arrived in New York about half past 8 o'clock Thursday morning, bringing intelligence from Europe to the 6th inst., one week later. It is not, however, of great importance.

The Erie arrived at Southampton on the 29th, after a boisterous passage. The Arago arrived at Cowes on Friday evening, 28th.

The leading events in connection with the war are the quartering of detachments of French and English troops in Sebastopol, and the fact that the allied armies of operation threaten the Russian army both from Eupatoria and Beidar. The French cavalry, under Gen. d'Alenonville, defeated the Russians, near Eupatoria, on the 29th. Russian loss—50 killed and 105 prisoners; French, 6 killed and 27 wounded.

The Emperor of Russia was at Odessa, and the Russians were making immense preparations for the campaign. The fleet has sailed from Sebastopol on a secret expedition. It is supposed either to Nicolaev or Odessa. Kars still held out, according to last accounts, though the provisions were nearly exhausted. It was expected, however, that the snow would compel the Russians to retreat.

Preparations were making by the British and French engineers, by the sinking of immense mines, to destroy the splendid docks, arsenals, and shipbuilding yards of Sebastopol, and thus uproot the place as a naval stronghold. It is considered doubtful whether the Russians will be compelled to abandon their position on the approach of winter. It is however asserted from Vienna that the Russian army is actually retreating.

The correspondent of the Daily News also says:—"The belief gains ground that the Russians are preparing to evacuate the north side of the harbor of Sebastopol. It is understood that a combined movement is to take place against the enemy's position on the Mackenzie heights. A direct attack from Bakh-Serai is spoken of, the approach from the South being made by a route which is kept secret, and which will have the effect of avoiding the enemy's fortified entrenchments."

In an order which Prince Gortschakoff has addressed to his soldiers the Prince admits a loss of from 500 to 1,000 men per day during the last thirty days of the siege. Speaking of its capture he says:—"With its fall we acquire a freedom of action and a new war commences."

A letter from St. Petersburg states that the evening before the Emperor's departure for the South, a grand council was held, at which it was decided to carry on the war with the greatest determination, and that the Crimea is to be defended to the last extremity.

It is said that Gortschakoff is to become minister of war, and to be succeeded in the command of the army by Gen. Muraviev. Moscow advices state that 193,000 men have been added to the military force of Russia.

The garrison at Kars was laid pressed. It was stated that the Russians had captured a Turkish convoy of provisions, destined for the garrison, together with 1,000 horses and 300 men.

Omer Pasha had arrived at Batoum, and had been received with enthusiasm by the half starved garrison there.

The allies are reported to have established 190 mortars at Sebastopol, with which it was expected they would soon render the north side untenable.

The chief items in the English news are the rise in the rate of interest from 5 to 5-1/2 per cent. which took place on the 4th. A good deal of commercial uneasiness had resulted. The revenue returns of the United Kingdom show an increase on the year of nearly 8 1/2 millions sterling, chiefly caused by the additional income tax. The Board of Trade returns for August show an increase in the value of imports as compared with the same month in 1854, of \$107,759. The stock of bullion in the bank has been decreasing at an alarming rate for several weeks, the bank of France buying up all the specie it can. Several of the journals are crying out for a repeal of Sir Robert Peel's Bank act. The stock of gold and bullion in the Bank of England on the 4th was \$12,368,255.

Destile, Jayvin & Destile, merchants and bankers of London, had failed. Large advances in Canada, and disappointment in receiving remittances, have led to the suspension. Liabilities £400,000.

La Presse says that corn has at length reached its maximum price, and that the highest quotations have brought offers of supply from all quarters. Large arrivals of foreign flour were shortly expected. The very day on which the articles about flour appeared in the Monitor, a house at Havre sent a large order to New York.

The French government has interfered to regulate the price of butchers' meat. Major General Wyndham is likely to be placed at the head of a division in the Crimea. The Grand Cross of the Bath has, it is said, been conferred on General Simpson. Marshal Pelissier has received the same decoration of the Queen, and his Majesty, the Emperor of the French, has further awarded to General Simpson the Grand Cross of the Legion of Honor.

The St. Petersburg journals announce the return of the Empress from Moscow, and of the Grand Duchess and their children.

To horse owners, stable keepers and others.—Dyars' Healing Emulsion has proved to be one of the best remedies for lameness, caused by straining, bruises, sprains or other accidental causes, as well as for wounds, galls or other injuries to the feet frequently occurring to horses and other animals. It is also the cheapest preparation that can be used. A stable keeper in Providence says:—

"I have frequently used it with the most decided results upon my horses. I use it in all cases of cuts, wounds and bruises, and in intermittent pains and distress, and it never fails to give immediate relief, or to effect a cure."

It will heal wounds, cuts or sores, upon man or animal, sooner than any other preparation I have ever used.

Prepared only by P. B. Dyars, 84 Westminster street. For sale by F. W. C. C. and R. J. Taylor, Newport, R. I.

From the Home Journal, New York.
"No article ever acquired so rapid celebrity and universal popularity as Lydia's Katharine. To those who have used it, and who have not! The reason is obvious, as it is not only beautiful, but preserves and restores it at an advanced age of life. Its perfume and agreeable effluence effects should stamp it an indispensable article of the toilet." The above is but one of thousands of similar commendations—it stands unrivalled as its unparalleled popularity has caused several unprincipled persons to put up valueless imitations, which they call by somewhat similar names. Sold everywhere, in large bottles, for only 25 cents.

PROFESSOR WOOD'S

HAIR RESTORATIVE

IS, no doubt, the most wonderful discovery of this age of progress. The following is from a distinguished member of the medical profession:

St. Paul, January 1, 1855.

Prof. O. J. Wood, Dear Sir—Unsolicited, I send you this certificate. After being nearly bald for a long time, and having tried all the hair restoratives extant, and having no faith in any, I was induced on hearing of yours, to give it a trial.

I placed myself in the hands of a barber, and had my head shaved with a good stiff brush, and the Restorative then applied and well rubbed in, till the scalp was all in a glow. This I repeated every morning, and in three weeks the young hair appeared, and grew rapidly from August last up to the present time, and is now thick, black, and strong—soft and pleasant to the touch, whereas before it was harsh and wiry, what little there was of it and that hide was disappearing rapidly. I still use your Restorative about twice a week, and shall soon have a good and perfect crop of hair. Now I have read of these things—and who has not?—but have never seen hitherto, any case in which any person's hair was really benefited by any of the hair tonics, &c., of the day; and it really gives me pleasure to record the result of my experience. I have recommended your preparation to others, and it already has a large and general sale throughout the Territory. The people here saw its effects, and have confidence in it. All who have used it here, will coincide with me in what I have written. The supply you sent me, as the wholesale agents for the Territory, is already exhausted, and daily inquiries are made for it. You deserve credit for your discovery. I for one return you thanks for the benefit it has done me, for I certainly had despaired long ago, of ever restoring my hair. I congratulate you that your fortune (and a large one) is already made.

Yours, faithfully,

J. W. BOND.

Brookfield, Mass., July 12th, 1855.

Prof. Wood, Dear Sir,—Having made a trial of your Hair Restorative, it gives me pleasure to say that its effect has been excellent in removing inflammation, dandruff, and a constant itching scalp which I have been troubled with for some time, and also restored hair which was becoming gray to its original color. I have used no other article with anything like the pleasure and profit.

Yours truly,

J. K. BRAGG.

THE GREAT
TEA MARKET.
1 Chambers, Cor. Chatham St.
NEW YORK.

This is, without exception, the most reliable
place for consumers to purchase their tea.
They not only obtain an article of
GREAT PURITY

STRENGTH AND FLAVOR,
but at a much less price than is usually charged
for the most ordinary trash so frequently sold
by unprincipled dealers, through whose igno-
rance of the Tea Trade, the public have suf-
fered.

COUNTRY DEALERS
Will do well by giving us a call. They may
surprise the trade very materially by purchas-
ing of us, which trial alone will prove.
The establishment is so situated as to be ready
of access to all persons coming to the city,
being in the immediate vicinity of all the railway
terminals, and on the corner of Chambers and
Chatham streets.

E. T. CHRISTIANSON,
Proprietor.
N. B. - All tea warranted by us, and not
turning out according to representation, will be
taken back, and the money cheerfully returned.

SOAP! SOAP!!
THE subscriber is now prepared to furnish
the highly celebrated American Cream
Laundry, American Manufacturers' Soap,
and Cream Soap preparation. These
preparations are presented to the public with the fullest
confidence in their superiority and utility. A
fair trial according to the directions given be-
low, cannot fail to be entirely satisfactory, and an
argument more conclusive than pages of
verbiage and recommendations. A fair trial is
all I ask. These soaps do the work of the
laundry in the best manner in cold water, either
hard or soft, or salt, dispensing entirely with
boiling, pounding, washing machines, &c.,
without injury to the most delicate fabric. In
cold weather, health is rendered it advisable to
take the chill off the water.

The tendency of these soaps is to soften the
clothes and loosen the hold of the dirt, without
injury.

DIRECTIONS FOR USE. - White Clothes -
Rub the soap freely on all soiled parts, make a
strong suds in water, sufficient to cover, soak a
few hours, or at night if convenient, wash with
a common hand rubbing and thorough rinsing,
they will be perfectly clean and beautifully
bleached.

Colored and other colored articles, wash
without soaking and rinse.
Woolens - Wash in warm suds (to prevent
shrinkage) and rinse.
Mourning, Silk, Velvets, Silks, Ribbons, &c.
Wash in strong suds and rinse.

To take Lamp Oil, Wheel Grease, Grease
Spots, &c. out of Carpets, Table Covers, and
Clothing, rub the soap on freely, soak some time
in strong suds, rub out and rinse. Ink spots
and stains, use full strength, soak, and wash in
hot water.

Gilding and Mahogany - Wash in weak
suds, rub with silk cloth and rinse. Paint,
wash with strong suds.

For all other purposes, use as you do the
common bar soap, and you will be compelled to
admit that it surpasses all other soaps. Manu-
factured and for sale wholesale and retail by

SPRATT'S LIGHTNING RODS!
WITH branched and other points made of
pure copper and gilded with fine gold, a
few of which are warranted to preserve the ex-
tremity sharp and bright. Eight times as good
a conductor as a spurious imitation made of Cast
iron, and sold last year by some dealers in
Lightning Rods.

Also, Fixtures for a new and valuable im-
provement in applying lightning rods, by which the
rod is kept dry, and no leaks in roofs of build-
ings, and effectively preventing the Electrical
Fluid from being conducted by iron screws and
drives into the eave.

The following recommendations have been
furnished gratuitously -
Louisville, Jan. 27, 1881.
The Lightning Conductors on the plan of J.
Spratt, of Cincinnati, appear to me to be very well
designed, and in point of mechanical construction,
are the best I have ever seen.

It is to be hoped that the use of these rods
may become general as an important auxiliary
defense against a danger which must be regard-
ed as of an ordinary magnitude, to which all
buildings are liable.

P. SHILMAN, Jr.,
Prof. of Chem. in the Univ. of Louisville.

This will certify that I have examined the
Lightning Rods, Metallic Points, and Im-
mature Attachments, manufactured by Mr. Spratt,
of Cincinnati, Ohio, and regard them as con-
forming in conformity to the general laws of the
electrical fluid, and the Gilded Copper
branched points, as promising from the
results of several tests to which they were
submitted, to resist for years the action of those
atmospheric causes most liable to corrode them.

IS now prepared to offer to the public a very
large assortment of Boots and Shoes, suitable
for the present and approaching season, and
warranting that, without naming different articles
that he possesses every article that may be re-
quired from an establishment of the kind, and will
be furnished at such a price as will be reasonable
under the circumstances, and for the quality of the
goods he has been selected by the public, they may
be assured that nothing shall be wanting on his
part to merit a continuance of the same.

HAS constantly on hand a variety of Force
and Lin Pipe, of his own manufacture, which is
superior to any other in the market.
Also, Water Closets, Wash Basins, Crockets and
Cucinate Faucets, and every description of Plumbing
Materials of various qualities and prices, as cheap as
can be bought elsewhere.

Also, Pure Black Tin Pipe, warranted not to injure
the water in any way, and fitted in the best style to
Pumps and all other purposes.

Having prepared the services of an experienced
Plumber, he is prepared to execute all orders in this
line with accuracy and despatch.

Lead Pipe and Sheet Lead of various sizes on hand,
also, all kinds of Brass and Composition Castings
made to order. Ship Castings of all kinds on hand
and made to order at short notice.

JAMES W. LYON.
Having been appointed agent of the Hudson Gate
Perch Manufacturing Co., is now prepared to furnish
any quantity of Guts Perch pipe, and sheet
lead; this pipe can be fitted to any of the uses to
which lead has been applied, for conveying cold wa-
ter, and is much more durable than lead, as it is not
affected by any of the acids or alkalis, it is entirely
tasteless, does not emit any kind of water, will not
rot and cannot be burnt by frost. The sheet may be
applied to any use to which sheet lead may be ap-
plied, and is particularly adapted to fitting water tanks
and reservoirs and also for water closets work.

Grateful for past favors, he hopes by strict atten-
tion to his business to merit the approbation of his
customers. All work warranted not to fail, will
